The Swedish Chamber of Commerce in China **Honorary Award 2026**

Proudly delivered to

Motivation

The 2026 Honorary award was given to Scania for their bold and outstanding industrial project in Rugao. It represents a long-term strategic commitment and a clear example of how a Swedish industrial leader contributes to both industry development and society.

Through strong partnerships with local suppliers, communities, and technical institutions, Scania contributes to skills development, knowledge transfer, and responsible business practices. At the same time, it brings Swedish values of sustainability, safety, and efficiency into the local context, strengthening industry standards.

By combining industrial leadership, innovation, and a values-driven culture, Scania Group China serves as a role model for how global companies can create lasting impact—locally and worldwide.

On behalf of the Board, Swedish Chamber of Commerce in China
