

## Swedish Chamber of Commerce in China

### Honorary Award 2020

Proudly delivered to

### **Mr. Jesper Jos Olsson**

#### Motivation;

Swedes working in China are very often successful in the fields of engineering and product development. This year's recipient of the Swedish Chamber of Commerce in China Honorary Award has entered a completely different field, which is key to the Chinese economy and dominated by large Chinese companies.

Mr. Jesper Jos Olsson arrived in China in 2005 and established the Beijing based real estate development company White Peak in 2007. During his leadership, White Peak has successfully grown into a successful real estate development company with residential construction projects mainly in the provinces of Shandong, Hebei and Liaoning. Mr. Jesper Jos Olsson continues to promote Swedish technology, processes and a focused approach to ensure sustainability and urban integration recently evidenced in the White Peak project of Yantai Hammarby Eco City, largely modelled on the eco-friendly Hammarby project in Stockholm.

It's with great pride that we present a true entrepreneur, Mr. Jesper Jos Olsson as the receiver of the honorary award for 2020.

On behalf of the Main board, Swedish Chamber of Commerce in China

June 19, 2020

Lars-Åke Severin  
Chairman

Daniela Ling-Vannerus  
General Manager
