## Swedish Chamber of Commerce in China

### Honorary Award 2021

Proudly delivered to

### **The Swedish Embassy in Beijing**

Motivation;

Swedish companies operating in an international environment are dependent on strong support and commitment, not least from the Swedish missions abroad.

The Swedish Embassy in Beijing has for many years been a supportive partner for Swedish companies operating in China.

In recent years, with a rapidly growing market and an increasingly complex business environment, the Swedish Embassy has clearly strengthened its importance. During a challenging time over the past year, the Embassy has shown a collective strength in being able to understand the situation for the Swedish business community and shown strong commitment to support. Through specific tailored meetings the Swedish Embassy in Beijing has become further involved and has been able to navigate the challenging environment. The high level of commitment of the Embassy to the development of Swedish businesses in China has been very clear to the members of the Swedish Chamber of Commerce in China.

As a partner to the Swedish Chamber of Commerce, the Swedish Embassy in Beijing is of greatest importance.

Knowing that the work of the Embassy is very much of a team effort, it is with pleasure that we have decided to grant the 2021 Honorary Award to the Swedish Embassy in Beijing.

On behalf of the Main board, Swedish Chamber of Commerce in China

May 09, 2021
